

Welcome to Guildford Nursery School, Finley!

Finley, you are finding settling easier now that you have been here a while. You soon give us your dummy to put back into your bag and go off all by yourself. I have noticed how you like to play in the sandpit, either playing with diggers or building sand castles with a grown up. You found it very funny to stamp all over the castles I created for you, shouting “more, more” so that I could make them again. You giggled and laughed, getting very excited!

It was lovely to see you beckon to another child to join us, “come”, you said eagerly, holding out a hand. What a friendly, kind boy you are Finley.

You like to put on hats and often choose fire fighter or police hats to wear, running around the garden making siren noises!

I can tell that you have an older brother because you appear interested in the other children. You sometimes find it tricky to share but with time you will find this skill easier to manage.

At the moment you prefer not to eat snack but that’s O.K. We encourage you and show you where snack takes place so that you can make your own choices.

You like a cuddle with a familiar grown up and often go off to choose a book. You like to snuggle in and point to things on the pages, don’t you Finley?

It was funny watching you hiding a book that you had chosen under a rug. I was amazed that you remembered where you had put it after a couple of hours! You found it and we shared it together.

You are often asking for Mummy and we reassure you that ‘Mummy will come back soon’; as you have settled you ask less frequently. You are beginning to know the routine and at group time you settle down and say “Mummy soon”.

At group time we often sing altogether. You are beginning to learn the actions to the songs and lift your hands above your head. You like to join in with marching songs and ‘sleeping bunnies.’

We are going to have such a lot of fun together Finley and I look forward to watching you grow and develop.
